System Information:

- 1. No water leaks were reported for the month of December.
- 2. All routine monthly Bac "T" sample for the month of December came back absent for coliform bacteria.
- **3.** Quarterly Bacteriological for source monitoring "wells" returned an absence for Coliform Bacteria.
- 4. A sanitary survey, and system inspection was performed, by the State Water Resources Control Board, particularly by Jessie Dhaliwal, and Colton Nichelson. It has been determined that well three Chimney Cyn well is in violation for Uranium for the last four quarters (mcl is 20pCi/ the Chimney well is at 21pCi/L) as well as the already known fluoride violation. A quarterly Uranium notification and proof of service is now required to notify the public of the added Uranium mcl violation every quarter. Lebec County Water District has received a compliance order as of 01/07/2016 from the State Water Recourses Control Board. This compliance order outlines the requirements and timeframe given for well #3, and its mcl violations.
- 5. The system inspection that was performed on December 16, and 17 revealed only minor issues, such as the removal of the old well at Chimney Canyon, also the possible removal of the propane tank that remains on the lot adjacent to well #3. Other minor issues were pointed out, like the removal of the abandoned tank located at the Chimney tanks. Well to waste valves were mentioned, as well as gravel laid down at the State and Lebec wells, and the removal of the old pump motors, and old well piping. All in all the list gets longer, and Lebec County Water District should receive a detailed to do list from the State soon.
- **6.** Rmr has begun hauling water to Lake of The Woods Mutual Water Company, I have put a meter on the 1550 gpm hydrant just north of the FAS Radiator sign, as the board agreed too several months back.
- 7. Jeff Bryan, and myself have begun to clean out customer meter boxes, and have been creating a list of outdated meters, the eventual replacement of these meters should help with meter reading accuracy, and accuracy of the meters due to their age.

All other systems are running normally. Thank You.
