APPLICATION FOR NEW WATER SERVICE INSTALLATION

APPLICATION FEE: \$500 per parcel (When a parcel owner is requesting a Will Serve letter/New Service)

Includes administration fee for office personnel and/or engineer's time up to one hour (phone call or email) to determine if we can serve water to applicant's parcel. If it is determined within that hour that we can supply water, then no further deposit is required. If additional engineering time is needed and/or legal review is needed, a deposit will be required (some of which may be refundable) to move forward. Service connections that do not require any additional facilities, plans or engineering will be installed by LCWD.

APPLICATION FEE PAID _____ **DATE** _____

NAME OF OWNER/APPLICANT: _____

C.D.L. _____ **-Federal I.D. Number** _____

BUSINESS LICENCE: _____ **COUNTY** _____

CONTACT NUMBER: _____ **EMERGENCY NUMBER:** _____

SERVICE ADDRESS: _____

MAILING ADDRESS: _____

SERVICE CONNECTION FEES BY METER SIZE (updated 2024)

¾" Meter	\$8,000
1" Meter	\$9,000
1½" Meter	TBD at the time of application
2" Meter	TBD at the time of application
3" Meter	TBD at the time of application
4" Meter	TBD at the time of application
6" Meter	TBD at the time of application

DEPOSIT: TBD – if applicable

Amount equal to or greater than the cost of Water District personnel, the Engineers additional time to determine what is necessary to provide service, and possible legal review. The applicant may receive a partial refund if the estimated time is not used. Regardless of the application being approved or denied, the applicant is responsible for any charges for the above-mentioned.

DEPOSIT PAID _____ **DATE** _____

CONSTRUCTION:

Once we have issued a Will Serve letter to the applicant and they have a building permit, the applicant has the option to hire their own Engineer/Contractor to draw up plans that meet specs provided by Lebec County Water District. The applicant can also choose to have LCWD draw up the plans and an additional deposit will be required and determined at that time.

The applicant shall have a properly licensed, insured and referenced contractor to install line extensions, new facilities, etc. at their own cost per approved plans. All lines, facilities, etc. must be warrantied by the contractor for no less than one year starting at final approval and all new facilities, pipelines, etc. become the property of Lebec County Water District at that time. The applicant can also choose to have LCWD installed all line extensions, new facilities, etc. at the applicant's expense.

It is the district policy that water pressure regulators be installed and maintained by the property owner on the incoming waterline and LCWD is not responsible for such regulators or pressure problems. A ball valve (shutoff valve) will be installed by the district (if the district is completing the install) or required by the district if construction is being completed by customers contractor. This valve is beneficial to the customer in case of an emergency. The valve becomes the property owner's responsibility after initial install.

Water service will be turned on when construction has been inspected and signed off by Lebec County Water District and confirmation that all contractors and the district have been paid in full. The contractor's warranty begins at this time.

COMMERCIAL DEVELOPMENT NOTE:

All commercial properties will be required to install a cross-connection backflow device and test annually.

EXPLANATION OF PROPOSED PROJECT

Please give a detailed explanation of what will be built on the property. Include the following information:

- 1) Requested Meter size _____
- 2) Fire Requirements _____
- 3) Sq. ft of building/outbuildings _____
