The funding under this Agreement shall be used for the purpose of consolidating the distribution system of Frazier Mountain High School (FMHS) with the Lebec County Water District (LCWD). The project will address the fluoride and uranium maximum contaminant level compliance orders in both LCWD and FMHS, address storage capacity deficiency in LCWD, and increase overall system reliability.

A.2 SCOPE OF WORK.

The Recipient agrees to do the following: Consolidate FMHS into the LCWD, including the ownership transfer of all existing water system facilities, infrastructure, and customers. In addition, the Recipient agrees to complete the following in two phases:

Phase 1

Within LCWD, the Recipient will:

- Construct and develop a new groundwater well (Well No. 4), capable of producing approximately 400 gallons per minute (gpm);
- Construct a new building for Well No. 4;
- Install a diesel fuel tank and power generator at Well No. 4; and
- Construct approximately 0.63 miles of 8-inch diameter water pipeline from Well No. 4 site to the LCWD distribution system. Approximately 457 feet of the pipeline will be 10-inch diameter pipeline installed within approximately 312 feet of 24-inch casing under Interstate Highway 5.

Phase 2

Within LCWD, the Recipient will:

- Annex the territory of FMHS into the LCWD;
- Install approximately 0.33 miles of 6-inch diameter pressure zone interconnection pipeline;
- Install approximately 1.3 miles of 8-inch pipeline to move water from Well No. 4 to the Chimney Canyon Zone Storage Tanks;
- Construct a new 250-gpm booster pump station; and
- Construct a 200,000-gallon water storage tank including blending facilities, if necessary, based on the water quality and flowrate achieved by Well No. 4.

Within FMHS, the Recipient will:

- Construct approximately 1.8 miles of 4-inch drinking water pipeline;
- Construct a 25-gpm booster pump station;
- Install a power generator with diesel fuel tank;
- Construct a 203,000-gallon water storage tank for drinking water and fire protection purposes; and

Page 6 of 26

 Modify the existing 120,000-gallon tank's plumbing to separate for irrigation purposes.

Supporting documentation (e.g., receipts) must be submitted with each Reimbursement Request. The amount requested for Recipient's administration costs must include a calculation formula (i.e., hours or days worked times the hourly or daily rate = total amount claimed). Reimbursement of Project Funds will be made only after receipt of a complete, adequately supported, properly documented, and accurately addressed Reimbursement Request. Upon request by the Division, supporting documents for professional and administrative services must include the employees'

Any retained amounts due to the Recipient will be promptly disbursed to the Recipient, without interest, upon Project Completion.

Except as follows, construction costs and disbursements for Phase 1 are not available until after the Division has approved the Phase 1 final budget form submitted by the Recipient, and construction costs and disbursements for Phase 2 are not available until after the Division has approved the Phase 2 final budget form submitted by the Recipient. The Deputy Director of the Division may authorize the disbursement of up to ten percent (10%) of Project Funds for the reimbursement of eligible construction costs and pre-purchased materials prior to Division approval of the final budget form submitted by the Recipient. All other construction costs for Phase 1 and Phase 2 are not eligible for reimbursement until after the Division has approved the Phase 1 and Phase 2 final budget forms submitted by the Recipient, respectively. Construction costs incurred prior to the Eligible Construction Start Date are not eligible for reimbursement.

B.7 REVERTING FUNDS AND DISENCUMBRANCE.

In the event the Recipient does not submit Reimbursement Requests for all funds encumbered under this Agreement timely, any remaining funds revert to the State. Alternatively, upon consent of the Division, the funds received after the date of this Agreement under any such order or agreement shall be used as match funding for the Project or held in a restricted reserve account to support the financial capacity of the System.

(d) The amount of this Agreement may be reduced, and/or disbursements withheld, to offset amounts received under any contamination-related order or agreement described in paragraphs (a)(ii) or (b), above, to avoid double recovery. Noncompliance with paragraphs (a), (b), or (c) above shall be an Event of Default.

Upon the filing of a suit or other commencement of judicial proceedings to enforce the rights of the State Water Board under this Agreement, the State Water Board may make application for the appointment of a receiver or custodian of the Revenues, pending such proceeding, with such power as the court making such appointment may confer.

D.10 RETURN OF FUNDS

D.14 INSURANCE

The Recipient will procure and maintain or cause to be maintained insurance on the System/Project with responsible insurers, or as part of a reasonable system of self-insurance, in such amounts and against such risks (including damage to or destruction of the System/Project) as are usually covered in connection with systems similar to the

Page 21 of 26

System/Project. Such insurance may be maintained by a self-insurance plan so long as such plan provides for (i) the establishment by the Recipient of a separate segregated self-insurance fund in an amount determined (initially and on at least an annual basis) by an independent insurance consultant experienced in the field of risk management employing accepted actuarial techniques and (ii) the establishment and maintenance of a claims processing and risk management program.

In the event of any damage to or destruction of the System/Project caused by the perils covered by such insurance, the net proceeds thereof shall be applied to the reconstruction, repair or replacement of the damaged or destroyed portion of the System/Project. The Recipient must begin such reconstruction, repair or replacement as expeditiously as possible, and must pay out of such net proceeds all costs and expenses in connection with such reconstruction, repair or replacement so that the same must be completed and the System/Project must be free and clear of all claims and liens.

Recipient agrees that for any policy of insurance concerning or covering the construction of the Project, it will cause, and will require its contractors and subcontractors to cause, a certificate of insurance to be issued showing the State Water Board, its officers, agents, employees, and servants as additional insured; and must provide the Division with a copy of all such certificates prior to the commencement of construction of the Project.

Such approval may be conditioned as determined to be appropriate by the Division, including a condition requiring repayment of all disbursed Project Funds or all or any portion of all remaining funds covered by this Agreement together with accrued interest and any penalty assessments that may be due.

If the license agreement is not extended through December 10, 2054, the Recipient shall remove Project facilities from the license area, no earlier than 90 days prior to the license agreement termination date and no later than the license agreement termination date, at its own expense, unless the Recipient receives approval from the Division to leave them in place.

Upon the motion of any State Water Board Member, the State Water Board will review and resolve the dispute in the manner determined by the State Water Board. Should the State Water Board determine not to review the final Division decision, this decision will represent a final agency action on the dispute.
